December 2011

## President's Message

Well, the end of the year is upon us, seems like it went by really fast, must be my old age has something to do it! The older you get, the more effect gravity and time has upon a body.

Our Christmas Banquet will be held on Thursday, December 1, 2011 at the Red Cross Building at 6:00 PM. The Club will furnish Turkey and party size Boudin links and soft drinks, members are asked to bring some kind of covered dish. It will be mostly a social event, no VE Testing, no business other than a presentation of the award to Paula Romero KF5CNS for her completing her log for the Technician Contest before anyone else.

I would like to commend Glen Thibodeaux KF5FNP for his interest in taking on some of the duties of helping out in our Hamfest coming up in March 2012. He has some great ideas in making it one of our best by lining up some new vendors, making schedules for forums, etc.

Also, at the November meeting, a nominating committee for new officers were appointed. If you have any ideas of any perspective officers, contact Larry LeBlanc KE5KJD (chairperson) Sandy KE5KJF, Paul K5VSH, or Nick KE5MWX but do talk to the perspective person in advance and get their OK. The committee will announce their findings at the January meeting and published in the February LARC. At the February meeting, nominations from the floor will be selected, elections held and the new officers will be installed at the March meeting (the Saturday after the Hamfest).

If you have not paid your 2012-2013 membership dues, it is time to do so. A membership form can be downloaded and printed out from the club website (<http://www.w5ddl.org>) click on the "Membership Application" link. Make sure you have your current e-mail address and birthday on the form. Everyone is required to fill out a application!

The December 1<sup>st</sup> meeting will be last meeting of the year. It has been a fun year but next year it could be even more fun, so I ask you to do your part, get more active! You can do this by attending the meetings, express your views, check in on the nets, Elmer to those needing help, and volunteer to be a part of any of the events that come up....it can be FUN!

Until Next Year 73!

Herman Campbell KN5GRK  
AARA President

## New 60 Meter Band Rules and Regulations

On November 18, the FCC released a Report and Order (R&O), defining new rules for the 60 meter (5 MHz) band. These rules are in response to a Petition for Rulemaking (PRM) filed by the ARRL more than five years ago and a June 2010 Notice of Proposed Rulemaking (NPRM). In the R&O, the FCC replaced one of the channels in the band, increased the maximum authorized power amateur stations may transmit in this band and authorized amateur stations to transmit three additional emission designators in the five channels in the 5330.6-5406.4 kHz band (60 meters).

The Amateur Radio Service in the United States has a secondary allocation on 60 meters. Only those amateurs who hold General, Advanced or Amateur Extra class licenses may operate on this band.

Amateur stations must not cause harmful interference to -- and must accept interference from -- stations authorized by any administration in the fixed service, as well as mobile (except aeronautical mobile) stations authorized by the administrations of other countries.

PLEASE NOTE THAT THESE CHANGES HAVE NOT YET TAKEN EFFECT. These new rules will take effect 30 days after they are published in the Federal Register. The ARRL will announce on its website when the rules are published. Additional information can currently be found on the web at, <http://www.arrl.org/news/fcc-releases-new-rules-for-60-meters>.

## 2011 SKYWARN™ Recognition Day

December 3, 2011, from 0000z to 2400z

SKYWARN™ Recognition Day was developed in 1999 by the National Weather Service and the American Radio Relay League. It celebrates the contributions that volunteer SKYWARN™ radio operators make to the National Weather Service. During the day SKYWARN™ operators visit NWS offices and contact other radio operators across the world.

\* It's official, the 2011 edition of SKYWARN Recognition Day will occur on December 3, 2011 from 0000Z-2400Z.

Check out this website for schedules and participating National Weather Service stations that will be operating on the air. EchoLink & IRLP modes will be used. They will be issuing some nice QSL cards and certificates to participating ham radio operators making contacts.

<http://www.wrh.noaa.gov/mtr/hamradio/>

Also, his may be a good time for the Lafayette Parish EOC to check out the HF equipment and antennas along with introducing those who have shown interest in being given a tour of the EOC facilities. Ed Roy WA5TNK is the Lafayette Parish Emergency Coordinator and if you are interested in being shown around the facilities, drop him a e-mail at: [edroy@edroy.com](mailto:edroy@edroy.com)

## Paul Breaux Middle School Radio Club

On Thursday November 10, 2011 at 2:30 PM, Nick Pugh K5QXJ, Archie Hill W5AG and Herman Campbell KN5GRK paid another visit to Mrs. Terry Turners class to conduct a demonstration of sending and receiving formal NTS Radiograms to their Radio Club members. Archie made a layout on the blackboard of the NTS form and explained what each part of the header, addressee, text body, and signature meant and why Radiograms are necessary during times when all other means of communication fail. A prepared message was sent to the students to be copied on their blank forms. A student volunteered to copy another message on the blackboard form that was sent to him from down the hall on 2 meter simplex via hand-talkie by Mrs. Turner KF5FYW.

I think we are probably going to get some new hams from this group in the near future. This is one energetic club that cannot wait for their next meeting.

Herman KN5GRK
